

How are Winner Determined for the Mastery Bank Tournament

The winners of the Mastery Bank Tournament will be determined in two ways:

1. **Overall Scoring Student** – The student with the top cumulative score on August 19th will be awarded a virtual Lunch with Nicole giveaway (which includes a \$50 gift card for lunch).
2. **Top 3 Students Each Week by Grade Level** – To make the tournament more equitable for our younger students, we will sort the leaderboard by GRADE LEVEL at the end of each week. The top three scoring students in EACH grade will receive entries to a drawing of two virtual Lunch with Nicole giveaways (each including a \$50 gift card). The drawing will be held on August 19th.
 - 1st place for each grade – 3 entries
 - 2nd place for each grade – 2 entries
 - 3rd place for each grade – 1 entry

My encouragement to students

The Leaderboard is just one of the ways you can determine success in the Mastery Bank Tournament. The true intention of Mastery Bank is to improve your math skills and fill your math gaps by doing a little review each day. Just because someone has a lot more points than you, doesn't mean that you are necessarily competing against them. They might be in a different grade than you. My recommendation is to focus on your own progress and what it takes to improve a little each day. Slow and steady wins the race!
